The oiled oak has a natural matt finish. Grain, colour and knot variation are part of the material. Visible edges receive the same finish. A sample is approved before ordering. The bookcase is installed on a dry, stable support. Fixing points follow the support survey. Any void, service or weakness found after opening is reported before work continues. Site references: survey dated 7 October 2026, sketch AP-14-B and oak sample EO-2.

5. Installation, adjustment and finishing

Installation includes assembly in the room, adjustment of any doors and local joint finishing. Clean-up removes the protection and installation offcuts.
